To Whom It May Concern:

Subject: The Status of RoHS Compliance Products

We thank you very much for your constant support.

We, at Bellnix, have been implementing the RoHS compliance that has been enforced by the European Union (EU) from July/2006. We are pleased to inform you of our status.

1. RoHS Directive

“RoHS” is the abbreviation of “**R**estriction of **H**azardous **S**ubstances”. The RoHS directive 2002/95/EC was adopted in February 2003 by the European Union (EU). The RoHS directive takes effect in the sales and distribution as of July 1, 2006, however, this is not a law; it is simply a directive. This directive restricts the use of six hazardous materials in the manufacturing of various types of electronics and electrical equipments. The six materials are Lead, Mercury, Cadmium, Chromium VI(hexavalent chromium), PBB and PBDE.

2. Our Status

We have endorsed the RoHS compliance for our existing products as well as our new product lines. Regarding the status of our existing products, please refer to the list of “RoHS Compliance Product Information”.

Subject: The Status of RoHS Compliance Products

3. Notes

- * **“RoHS Compliance”** means the products do not contain lead, cadmium, mercury, hexavalent chromium, PBB and PBDE, except exemptions stated in EU Directive.
- * **“Surface Treatment of Pin”** is only for RoHS compliance products, not for Non-RoHS compliance products.
- * **“<RoHS>”** in the list “RoHS” means that we have already released a RoHS version of the product and we can ship out only after we have completely shipped out the inventories of the older Non-RoHS version.
- * **“OK”** in the “MP Schedule” column means that we have already started delivering the RoHS compliance products to our customers.
- * **“X/2006”** in the “MP Schedule” column of the list means that we will start to deliver the RoHS compliance product to our customers from X/2006. However, we will switch over spontaneously according to the distribution stock.
- * Model names do not change due to RoHS compliance. Please order with the conventional model names. (There are no changes in performance and characteristics of the products)
- * Please contact our sales staff for more information and support.

Sincerely yours,

Noriyuki Takahashi
Manager / Sales Division
